Description

Based on the time-tested 92, the 100 and 101 offer .40 caliber stopping power in Taurus' exclusive forged-alloy frame, and an ambidextrous three-position safety that allows "cocked-and-locked" single action carry or the convenience of decocked double action. Available in fixed sight model 100 and in adjustable sight model 101, it's an unprecedented mix of dead-on firepower and custom features that the other guys just can't touch.
