Description

An incredible seven shots available at a moment's notice. The 617/817 revolvers provide the advantage of the extra round with Taurus' exclusive 7-shot cylinder. Soft rubber grips and low-profile sights make these revolvers a most desirable carry option for law enforcement professionals or for self-defense. Add in a yoke detent, and solid steel construction and there really is no competition for this hard-hitting combination of customer-requested features.
