UPC: 7-25327-60566-9

Caliber: .45 ACP

Weight: 38 oz

Construction: Steel

Front Sight: Heinnie

Trigger Type: Ventilated

Description

It's said that necessity is the mother of invention and the Bull's Head Walnut design grips prove that axiom. We researched the finest grips in the world and settled on the "European Stipple" pattern and the "American Checkering" pattern as the best in all situations. So we combined them in one of the most handsome and distinctive grips ever produced. We'll bet if you don't buy the gun you will buy the grips. Guess what? As an added bonus we even include the standard grips with this special gun.
