

# MESSAGE FROM THE PRESIDENT

Excellence is not born from complacency. It is the fruit of hard work and determination. It is nurtured by breakthrough thinking and emboldened by an unwavering commitment to continual improvement. Within the walls of our new, state-of-the-art 200,000-square-foot manufacturing facility in Bainbridge, GA, Taurus USA has amassed the technology, the expertise and the passion to offer world-class innovation at a truly unprecedented price point.

But you'll find no room for complacency here. As consumer demand for firearms reached unprecedented levels in 2020, we resoundingly answered the call by increasing our U.S. based manufacturing capacity to meet our customers' ongoing needs. We also significantly improved our Customer Service and Warranty Repair processes—resulting in the shortest warranty turnaround time in our long-standing history.

In addition, we introduced a number of new and innovative firearms focused on the unique, real-world demands our valued end users. The launch of the striker-fired Taurus® G3 and Taurus® G3c, for example, offered consumers budget-friendly access to next-level function, reliability and durability in either a full-size or compact personal defense handgun. Several other new products were unveiled in 2020 that gave our consumers more feature-based, benefit-driven options such as the versatile Taurus® 942 8-shot 22LR/22WMR revolver and the ultra-rugged Taurus® 856 Defender 38 Special +P revolver with 3" barrel and front night sight.

From groundbreaking product design and engineering to enhanced quality control to a stringent focus on customer satisfaction, we continue to deliver unmatched value as the industry's undisputed price leader. In fact, no other firearm manufacturer offers such an advanced level of new product innovation with intuitive, user-demanded features and functionality built right in at such a competitive cost. Our product engineers, designers and quality control experts work together seamlessly to ensure excellence is integrated into everything we do as we continually bring to market the most innovative and most affordable firearms ever conceived.

As we enter 2021, we anticipate the strong demand within our industry to continue—and we have securely positioned ourselves to deliver affordable, feature-driven firearms backed by our Lifetime Limited Warranty and unparalleled customer service. We are excited to launch several new additions to the Taurus® line throughout 2021 that will not only address key product categories and price points, but are sure to set new standards in overall firearm design, quality and value.

Welcome to the new Taurus®. We look forward to taking this next step in our journey with you.

A handwritten signature in black ink, appearing to read 'Bret Vorhees', is positioned above the printed name.

Bret Vorhees | Taurus USA President and CEO

MICRO-COMPACT 9MM

18.5 OZ.

3" BARREL

11 ROUNDS

**A LEVEL OF  
DISTINCTION  
ALL ITS OWN.**

With the introduction of our first-ever micro-compact 9mm, the all-new **Taurus GX4™** boldly outclasses anything else in its class—reaching unprecedented new heights in concealed carry firearm engineering, ergonomics and innovation. On the outside, there can be no doubt that every streamlined inch of this rugged striker-fired semi-auto was meticulously crafted for EDC readiness and reliability. While a game-altering combination of full-sized capacity, accuracy and power resides within its ultra-concealable one-inch-wide reinforced frame. The exceptionally affordable **Taurus GX4™** is backed by our Limited Lifetime Warranty and industry leading customer service for added peace of mind when it matters the most.

# G3c

## WHEN LESS IS SUBSTANTIALLY MORE.

The heart of a full-size. Available in a compact polymer frame. The striker-fired **Taurus® G3c** with restrike capability gives you everything you ever wanted in an everyday carry handgun. And some things you've never even dreamed of. An upgraded flat trigger system delivers accuracy enhancing performance. While an all-weather Tenifer finish and tough Teflon coating keep corrosion at bay. A dovetail cut rear sight makes compatibility with most aftermarket sights a breeze.

# SQUAD GOALS.

At Taurus, we don't just drive innovation.  
We consistently challenge the status quo.  
The same goes for our elite competitive shooting team.

## KC

---

Seven-time World and National Speed Shooting Champion KC Eusebio is easily one of the most recognized names in competitive shooting. A U.S. military veteran, USPSA Grand Master and winner of the coveted USPSA Open National title, KC continues to set the bar for success at the highest levels of competition.

## Jessie

---

Team Captain Jessie Harrison is recognized as one of the top-ranked competitive shooters in the world. With multiple world and national titles, she continues to set and break records in her field at a relentless pace—and is the first female to obtain Grand Master status in the United States Practical Shooting Association (USPSA).

## Trent

---

Junior Team Taurus Member Trent Eichler is a naturally gifted and skillful athlete with a focus on competitive handgun shooting. Trent's journey will serve as an inspiration to others like him—and blaze the path for a new generation of young competitive shooters everywhere.

# PARTNERS

## GUNS&AMMO

Award-winning Guns & Ammo TV, voted by viewers as the Best Shoot Show for four consecutive years, is one of the longest running shooting/firearms-centric shows on cable television. Co-hosted by Craig Boddington and Kyle Lamb, Guns & Ammo TV features exclusive gun, ammo, and optics range reports.

American Rifleman is the on-screen version of the National Rifle Association's American Rifleman magazine, "the world's oldest and largest firearm authority." American Rifleman is the pre-eminent source for accurate, compelling, authoritative information on all aspects of firearms and the shooting sports.

Airing on the Sportsman Channel, Handguns & Defensive Weapons combines the most popular features of two of the channel's most well-known shooting shows, Handguns and Personal Defense. It is co-hosted by Rich Nance and James Tarr and covers everything from competition and self defense to pocket guns and long distance rifles.

Everything Eichler is a closer look at the Eichler Field to Table lifestyle. They will share a combination of the daily challenges of ranching, farming and running an outfitting business in Colorado. This show will still include all of the extreme bowhunting and predator hunting action viewers love but will also include hunts with friends, family and clients.

Gallery of Guns TV brings the home shopping concept, but in this case for firearms, to the viewers. This one-of-a-kind show is designed to educate consumers on the unique features and benefits of select firearms from Davidson's GalleryofGuns.com.

With more than five million members, the National Rifle Association is America's longest-standing civil rights organization. While widely recognized today as a major political force and as America's foremost defender of Second Amendment rights, the NRA has, since its inception, been the premier firearms education organization in the world.

HAVA was conceived and organized in 2007 by a Committee of shooting sports industry executives to help the healing and re-integration of disabled veterans and injured active military. The ultimate goal is to increase their confidence and hope for the future by reconnecting with their love of the outdoors and the American traditions of hunting and firearms.

**WARNING** concerning ammunition marked "+P" and "+P+". Taurus Firearms rated for "+P" ammunition are rated for Sporting Arms and Ammunition Manufacturers Institute (SAAMI) compliant "+P" ammunition. SAAMI does not recognize any "+P+" ammunition at all. It is DANGEROUS to fire "+P+" ammunition in any Taurus firearm and if you do so you may be seriously injured or killed.

In addition, it seems some ammunition marked "+P" is not SAAMI compliant either. There are only four calibers that can carry a "+P" rating from SAAMI. They are 38 Special +P, 9mm Luger +P, 38 Super Automatic and 45 Automatic +P. There are no other SAAMI approved "+P" loads. Any ammunition in any other caliber marked "+P" is not SAAMI compliant, may be dangerous and should not be used.

#### **DANGER FOR "+P+"**

Never use "Plus -P -Plus" (+P+) rated ammunition in any Taurus firearm. The Sporting Arms and Ammunition Manufacturers Institute (SAAMI) does not recognize such ratings and such ammunition can be very dangerous. Firing such ammunition can cause catastrophic failure in firearms resulting in serious bodily injury or death.

#### **WARNING FOR "+P"**

Only fire SAAMI rated Plus P ("P") ammunition in Taurus Models designated by Taurus for +P use as below. Firing +P ammunition in other Taurus products may be dangerous and can result in serious bodily injury or death.

- 85 (most models) small frame revolver in 38 Special
- 856 small frame revolver in 38 Special
- 850 small frame revolver in 38 Special
- 851 small frame revolver in 38 Special
- 85 Polymer small frame revolver in 38 Special
- 82 medium frame revolver in 38 Special
- 817 medium frame revolver in 38 Special
- All firearms chambered in 38 Super Automatic
- All firearms chambered in 45 Automatic (ACP)
- All firearms chambered in 9mm Luger

#### **WARNING**

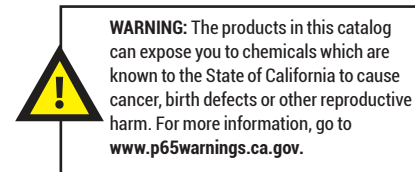

Even if your Taurus firearm is rated for Plus-P ("P") ammunition, such ammunition generates pressures significantly in excess of the pressures associated with standard ammunition. Such pressures may affect the useful life of the firearm or exceed the margin of safety built into many firearms. Unless you need +P ammunition, do not use it, particularly for practice.
