MSRP: \$299.00

Description

The Taurus Model 62 .22 Long Rifle carbine and rifle is faithful in most respects to the legendary design of the classic Model 62 that John Browning invented and American shooters fell in love with over 60 years ago. The Model 62, in pump-action Carbine (C) or lever action (LA) looks, feels and shoots like the original, with the addition of modern safety and manufacturing. The Model 62 features a manual safety, button rifled barrels for accuracy and stocks carved of the finest hardwood. The fully adjustable sights allow for accurate shooting.
