Description

The Taurus Model 63 is a faithful reproduction of the classic John Browning auto-loader right down to the blue steel butt plate. This customer-favorite .22LR features everything that made this gun so popular in its day and has added in all of the refinements new manufacturing technology and safety features offer. A stock-mounted loading chute and the beautiful, top-quality hardwood stocks complete this shooting package. Built with quality materials and craftsmanship, the Model 63 gives another generation the opportunity to enjoy a finely crafted twenty-two autoloader at a very affordable price.
